

ABSTRACT OF DISCLOSURE

A paper guide used in an ink-jet printer. The paper guide for the ink-jet printer includes a plurality of first guide ribs which protrude on the paper guide to face a front-half swath of a printhead and forms a predetermined interval therebetween, and a plurality of second guide ribs which protrude on the paper guide to face a rear half-swath of the printhead and forms an interval therebetween to be wider than the interval between the first guide ribs.
